

# 2600 Series

## Point of Sale System

The 2600 POS Touch Workstation is an all-in-one system designed to deliver high performance, superior reliability and exceptional value. A large, durable PCAP touchscreen, fanless design and multiple configuration options makes the 2600 the perfect solution for the most challenging retail environments.

### Greater Flexibility

- A true flat 18.5" widescreen touch monitor provides a bright, easy-to-read display that is perfect for any POS application.
- The Projected Capacitive (PCAP) Touchscreen is extremely durable and highly responsive and can meet the challenge of the most demanding retail environment.
- A variety of configuration options are available including wireless and Bluetooth, an integrated MSR, integrated customer display and a large 15.1" customer facing rear video display.
- The compact all-in-one footprint is a perfect fit for space-conscious deployments, as well as for temporary and season store locations.

### Better Reliability

- A fanless design increases overall product dependability by eliminating a potential failure point and provides for quiet system operation.
- A durable platform with a stable base provides the perfect hardware solution for the toughest retail environments.
- No system vents are needed so the electronics are protected from dust and liquid spills ensuring continual operation
- A smart design with easy access to key components and input and output ports provides retailers with efficient operation

### Enhanced Sustainability

- A standard 3 year manufacturer's warranty provides retailers with peace of mind so they can focus on their retail business and not their POS systems.
- Efficient electronics deliver high processing performance at an economical price.
- Intel Pentium, i3 and i5 processor options provide the performance needed for the most challenging retail operations.
- All ports are clearly labeled ensuring fast set-up and efficiency when changing peripherals.
